No 2395

Dated 15th October 1901

Sir,

I have the honor to enclose estimates for the gas installation at the Victoria Hospital.

2. The estimates provide for the actual installation and for the housing of the gasometer and the engine men.

3. It was originally proposed to lodge the gasometer in a masonry tank, but the engineer's letter* will be seen from Mr. B.S. Venkatachariar's letter say that the masonry tanks are not satisfactory and that the steel tank is cheaper in the long run.

4. The total estimate (providing a steel, instead of a masonry tank) amounts to Rs.21849/- while the allotment by Government is Rs. 16700/- I have the honor to request that Government will be pleased to make a supplemental grant to cover the difference between the estimate and the amount already sanctioned.

I have the honor to be,

Sir,

Your most obedient servant

J. Smyth M.D.

5/11/01 (143) Rs 16900 in the Budget Provision for the Gas works to be executed for the V. Hospital. Mysore intended to have underground pipes from the Gas works to the Hospital. The Estimate for the same is Rs 18000. So there remains a deficit of Rs 3849. Hence the total amount required sanction is Rs 21849. The amount is to be sanctioned from Civil Cal Contingencies.
